PROFESSIONAL VILLAGE MANAGEMENT IS **YOUR** BUSINESS

# Village Management Is For Purpose

## WELCOME

It is with great pleasure the DCM Institute welcomes you to Village Summit 2022.

This year we have assembled a program of thought provoking and industry-leading speakers, all of whom will talk to our theme of 'purpose'.

The role of a Village Manager is unlike any other, which is why days like today are so important, in that it provides you with an opportunity for professional development as well as ample time to network with your peers and hear from managers of other retirement villages.

In addition to thanking the team of people who have made today possible, we would also like to thank our sponsors for their continued support.

As we emerge from COVID-19 and the challenges it brought us, we can all reflect proudly on what the sector achieved in keeping staff and residents safe. Importantly, we can also

reflect that the reputation of the sector has never been stronger in the eyes of the next wave of retirees – the baby boomer.

That said, the baby boomer comes with their own challenges as a consumer group. They are a generation unlike any who have come before, and they understand the value of purpose and will be looking for it in their retirement.

We can't wait to explore this with you today.
